General Info

Corporate Stewardship

We all bear the responsibility to use, handle and distribute chemical products and supplies in a manner that protects our environment and public safety. At Spectrum, we take product stewardship very seriously. Spectrum and its distributors work together to ensure that our products are sold only for legitimate use and to those with the ability to handle our products responsibly.

Opening a New Account

Setting up a Spectrum account is easy. We welcome all legitimate commercial or public entities to apply. Contact Customer Service at 800.772.8786 for immediate attention. Your Spectrum account number and a password to enter our secure website will be issued upon approval.

Pricing, Terms and Specifications

Prices and specifications shown are current at the time of printing and are subject to change without notice. Orders will be invoiced at the prices prevailing when your order was received. Spectrum ships orders F.O.B. Gardena, CA, New Brunswick, NJ, Portland, OR or Philadelphia, PA. Payment terms are net 30 days with established credit. Until credit is established, terms are payment in advance of shipment. Spectrum accepts VISA, MasterCard, Discover and American Express. Sales, use, excise and other applicable taxes will be charged.

Method of Shipment

When possible, we ship by the means you specify. Certain hazardous materials may have shipping restrictions. We reserve the right to change the means of shipment when necessary, but will make every effort to minimize shipping costs. “Ship On Ice” items ordered on a Friday will incur extra shipping costs for Saturday delivery.

Most products in this catalog are accepted by UPS or FedEx Ground. These carriers generally accept hazardous material with a maximum weight of 70 pounds per package and non-hazardous material with a maximum weight of 150 pounds per package.

Claims for Loss or Damage

We take great care to properly fill and pack orders. Please inspect your order as soon as it is received, taking special care to examine the packing material for small items. If any part of your order is missing or defective, please contact us at 800.772.8786 immediately.

Damaged Freight

If you receive a damaged item, have the delivery driver describe the damage on the delivery receipt prior to accepting the shipment. Within 5 days of the delivery, you must contact Spectrum’s Customer Service Department regarding the damage or you will relinquish your right to make a claim. Be sure to keep all products and shipping materials for inspection, since discarded items cannot be claimed for credit.

Returns and Return Materials Authorizations

If it becomes necessary to return a product, please contact Customer Service for a Return Materials Authorization (RMA) number. All returns without authorization will be refused. Requests to return products must be made within 30 days of receipt of material. Returns must be received within 30 days of RMA authorization. After 30 days, the RMA becomes void. Returns must have the RMA number clearly visible on the outside of the shipping container and must be packaged and shipped in compliance with all applicable regulations.

Spectrum will attempt to accommodate all reasonable requests for returns; however, all returned items are subject to a restocking fee. Items not returnable for credit include: opened or damaged containers: items not in resalable condition (including packaging); material past its expiration date or with an expiration date too short for resale (no less than 60 days from expiration); material requiring refrigeration; custom or special orders , discontinued items; bulk or large quantity orders; DEA List 1 Chemicals.

Regulatory Compliance

It is the sole responsibility of each user to know and comply with all applicable federal, state, local and international laws, regulations or requirements. Regulations, their interpretation and enforcement undergo constant change. Contact our Compliance Department at 800.772.8786 for questions about regulatory requirements for a specific order.

Regulatory Documentation

Spectrum makes an ongoing effort to make compliance as easy as possible for our customers. Customers seeking to purchase sensitive, regulated or controlled items will be asked to provide appropriate credentials and evidence of bona fides. For some products, we will request additional intended use information to meet regulatory or product stewardship obligations. Please help us ship your order as soon as possible by providing required information and documents expeditiously. Necessary forms may be downloaded from SpectrumChemical.com.

DEA List 1 Chemicals

Current List 1 & 2 Signature Card (Spectrum Form QAF482) required for List 1 Chemical orders. Intended use information will be requested. Orders for resale require reseller's current DEA Chemical Distribution Registration Certificate. No will-call orders accepted. ONLY written orders will be accepted. Please refer to 21CFR1309 Registration of Manufacturers, Distributors, Importers and Exporters of List I Chemicals and 21CFR1310.07 Proof of identity.

DEA List 2 Chemicals

Current List 1 & 2 Signature Card (Spectrum Form QAF482) required for orders meeting or exceeding applicable DEA thresholds. Additional intended use information may be requested. See 21CFR1309 Registration of Manufacturers, Distributors, Importers and Exporters of List I Chemicals and 21CFR1310.07 Proof of identity.

Exports: Conditions of Sale

No product obtained from Spectrum may be exported or re-exported; resold for export or re-export; distributed for export or re-export; or resold or distributed for uses, or to destinations, in violation of the Export Administration Regulations of the United States. Spectrum makes every effort to accurately determine the Export Control Classification Number for each product. However, it is the sole responsibility of anyone engaging in subsequent distribution to understand the Export Administration Regulations of the United States and to ensure that such transactions are made in full compliance therewith. Radioactive materials and items on the United States Munitions List are not offered for export. See 15CFR Chapter 7.

CAS Numbers

Chemical Abstracts Service (CAS) Registry Numbers have been shown, when applicable, as an aid to literature searches. While we have made every effort to ensure their accuracy and to choose the most appropriate registry number when more than one applicable number exists, Spectrum assumes no responsibility for CAS number accuracy or applicability.

General Info

CI Numbers

The American Association of Textile Chemists and Colorists has developed a 5-digit Color Index (CI) number that is specific for individual dyes. The numbers are given, if available at the time of printing, but Spectrum assumes no responsibility for CI number accuracy or applicability.

Hazards

Read and understand the label and Material Safety Data Sheet (MSDS) prior to using any chemical. All chemicals may pose unknown hazards and should be used with caution. Spectrum makes every effort to provide suitable precautionary labeling, based on technical data judged to be reliable. The hazardous properties or toxicological effects of many chemicals have not been studied. The absence of a warning should never be taken as an indication of harmlessness. In addition, products that have been combined with other materials, that have deteriorated or that have become contaminated, may pose hazards not covered in the precautionary labeling. Our products are intended for use only by qualified persons familiar with their properties and hazards, following suitable safety procedures and utilizing proper safety and protective equipment. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use.

Many chemicals in this catalog have been made on a research basis only. Their chemical, physiological, and toxicological properties and hazards have not yet been fully investigated or determined.

When known, hazard class, Merck Index, Chemical Abstract and RTECS Numbers are provided for each chemical. Spectrum does not accept any responsibility for this information's correctness, completeness, or that it may fully provide all hazardous properties of each chemical. Chemicals may be extremely toxic or otherwise hazardous. The absence of warning as to these conditions cannot and should not be interpreted as an indication of safety.

All products should be handled only by individuals familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. MSDS' will be provided as required by OSHA's Hazard Communication standard.

If a product is hazardous, the product description will carry a number of 1-9. This number is for one of the nine classes defined by the UN Committee of Experts on the Transport of Dangerous Goods. The UN classes relate to the type of hazard:

1. Explosives
2. Compressed gases
3. Flammable and combustible liquids
4. Flammable solids, spontaneously combustible materials, and materials that are dangerous when wet
5. Oxidizers and organic peroxides
6. Toxic materials
7. Radioactive materials
8. Corrosive materials
9. Miscellaneous hazardous materials

TSCA/USAGE

All products described in this catalog are for research purposes only. They are in no way to be used for food, drug, household or any other applications. These chemicals are research chemicals as defined under TSCA. As such they should be used or handled only by or under direct supervision of "technically qualified individuals" as defined in 40CFR710.2(aa).

The hazards, physiological and toxicological properties of most of our chemicals have not yet been fully investigated and/or determined. Therefore, all of our chemicals should be handled with the utmost caution when they are used, stored or during disposal. Spectrum makes no guarantee of any results and assumes no liability for damage to any person, persons or property resulting from incorrect handling, storage, usage or disposal of our products. Spectrum is not responsible for conditions and actions which are beyond our control.

Buyer acknowledges that Seller's products are intended primarily for laboratory use and they may not be on the inventory of Existing Chemical Substances defined pursuant to the Toxic Substances Control Act (TSCA). Seller assumes no responsibility to assure that products purchased hereunder may be used in a commercial application as defined under TSCA.

Liability

While the information and data included in this catalog are correct and reliable to the best of our knowledge and belief at the time of printing, they are not guaranteed to be so, and no responsibility is assumed. Spectrum Chemical Mfg. Corp. warrants that the products it ships shall meet the specifications and purity stated on the product labels at the time of shipment and reserves the right to modify any specification or purity given due to changes in raw material supply, market conditions or other factors. Spectrum's obligation shall be limited to the replacement of merchandise up to the purchase price and is limited to material in the original container that has not been tampered with, misused, damaged, contaminated, adulterated or allowed to deteriorate. Spectrum does not offer any warranty of fitness for a particular purpose and assumes no responsibility for losses involving the use of its products. All products produced, marketed, sold or otherwise provided by Spectrum Chemical Mfg. Corp. or its distributors are to be used by, or under the supervision of, qualified persons familiar with their uses, properties and hazards, following suitable safety procedures and utilizing proper safety and protective equipment.

Material Safety Data Sheets

The Spectrum Material Safety Data Sheet (MSDS) conforms to the 16-Section ANSI MSDS standard, ANSI Z400.1 (2004). MSDSs are available at SpectrumChemical.com.

Spectrum Catalogs & Brochures

Spectrum USP/NF/FCC Catalog

This catalog contains over 2,200 monograph chemicals, DEA Controlled Substances (Schedules II-V), research chemicals, and reagents for USP testing. This Handbook for Scientists and Manufacturing contains the most comprehensive listing of monograph chemicals available from a single source. (464 pages)

Spectrum Chemicals & Laboratory Products Catalog

Over 15,000 chemicals and reagents available from a single supplier for research and laboratory use. Spectrum also distributes nearly 80,000 supply and equipment items from over 250 manufacturers. (2,100 pages)

Spectrum Bulk Fine Chemicals and Intermediates Catalog

Over 3,300 BULK fine chemicals available in production quantities including active pharmaceutical ingredients and intermediates, excipients, DEA Controlled Substances (Schedules II-V), cGMP custom synthesis services, dietary supplements, cosmetic ingredients and food grade/Kosher products. (552 pages)

Spectrum Chromatography & Spectroscopy Products Catalog

Over 6,000 products featuring a comprehensive line of laboratory consumables from PerkinElmer for GC, LC, MS, IR, UV/VIS, AA, ICP, NMR and other chromatographic and spectroscopic techniques. Also includes 1,250 frequently used laboratory chemicals for sample preparation and analysis. (416 pages)

Spectrum Custom Synthesis & Contract Manufacturing Brochure

Spectrum Custom Synthesis provides contract research and manufacturing services ranging from the preparation of new chemical entities through commercial cGMP manufacture of active pharmaceutical ingredients, DEA Controlled Substances (Schedules II-V) and their chemical intermediates.
